

Real Estate Virtual Tours

Seamless Panoramas

Thelen Imaging uses state of the art digital photography which allows for a seamless panoramic virtual tour. Our method gives the viewer the visual sensation of standing in the middle of the room and looking in the direction of their choice.

The entire room is photographed in a single shot which eliminates the stitching process commonly found in virtual tour creation. This allows us three distinct advantages.

Our photo shoots take half the time. A stitched virtual tour takes approximately twenty photos per room while ours takes one.

A "rounding" effect is common in a stitched tour caused by the angled walls in corners. This distortion is nearly eliminated with the single shot method.

Lastly, there is color. Tone and hue can change from photo to photo. For example, cloud cover is dynamic enough to create and alter shadows causing a stitched tour to reveal its seams.

Please visit www.thelenimaging.com to see samples of what we can do for you.

VIRTUAL TOURS BY THELEN IMAGING

How many words is a picture really worth?

It's been said that a picture is worth a thousand words. Imagine what a picture that your customer can control is worth. A picture that they can zoom in and out, rotate, and focus on the features they find most interesting. Now, imagine this picture surrounded by your logo, your photo, your colors, and a simple user interface.

People enjoy the opportunity to choose. Thelen Imaging can provide that opportunity. Our packages include professional photography, state of the art 360 panoramas, and weekly statistics. We also understand that descriptions and prices can be dynamic in the real estate business. So, all packages include unlimited text changes.

You can incorporate our features by placing our linked icon on your web listing which we provide via email. This allows your website to remain as your web-master designed it while giving the illusion that the virtual tours are integrated in your site.

Your virtual tours are also available on CD. Customized with your company logo and

| Tour Packages | | |
|----------------------------|----------------------------|----------------------------|
| Package A \$99 | Package B \$159 | Package C \$249 |
| 6 Virtual Tours | 8 Virtual Tours | 12 Virtual Tours |
| 12 Photos | 20 Photos | 36 Photos |
| Weekly Stats | Weekly Stats | Weekly Stats |

| Web Hosting for 6 Months | Web Hosting for 6 Months | Web Hosting for 6 Months |
| Unlimited Text Changes | Unlimited Text Changes | Unlimited Text Changes |

contact information, they are perfect for your, "We need to think about it." customers. Virtual tour CDs are also valuable as a handout at open houses. Marketing research shows people are less inclined to discard of a CD than a business card or

brochure.

We partner with you and your team

Thelen Imaging specializes in serving the northern suburbs of the Twin Cities metro area. Our competitors charge a destination fee of up to \$35 to travel outside the Minneapolis/St. Paul community. We are based in the Princeton area which gives us an advantage while working with the local real estate agencies.

We understand that your schedule can be tight. So, we prefer to open communications via email. We then can set up an appointment to discuss how our services can help your potential customers find the home of their dreams.
